

This is Lucas and Lilly. They are best friends. They both go to the same school. Lucas and Lilly are also in the same kindergarten class.

Going to school is new for them. Kindergarten is fun and they learn new things everyday.

Come with Lucas and Lilly to school. You will see how much fun they have as they learn.

Lucas and Lilly wait at the bus stop near the tree and the bench. They are excited to be going to school.

They wait and they wait! Luckily they are waiting together as friends so they do not need to wait alone. They have to be on time for the bus or they might miss it.

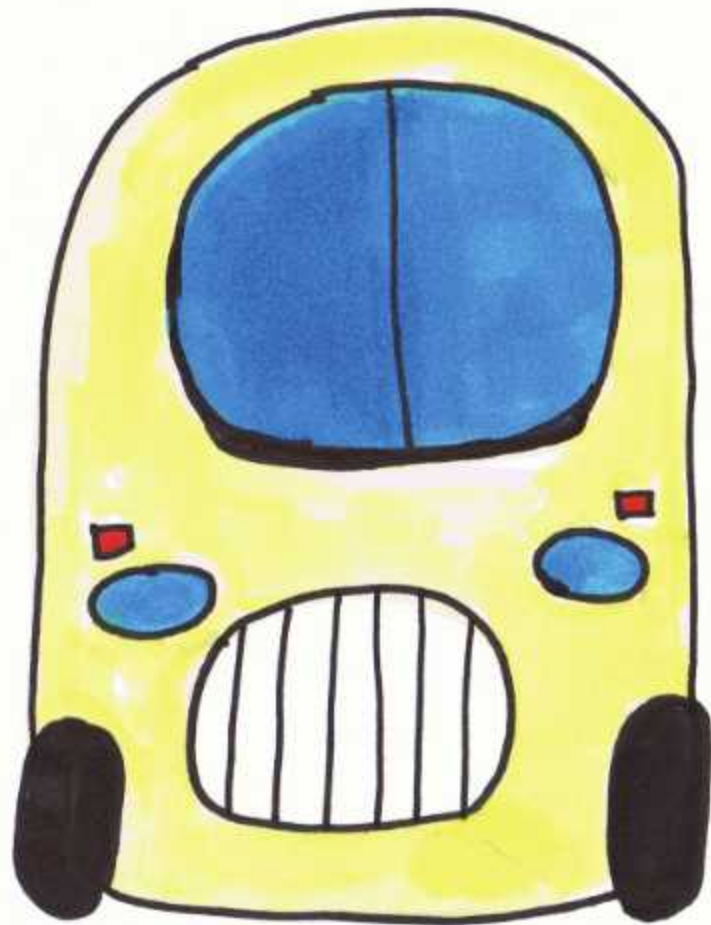

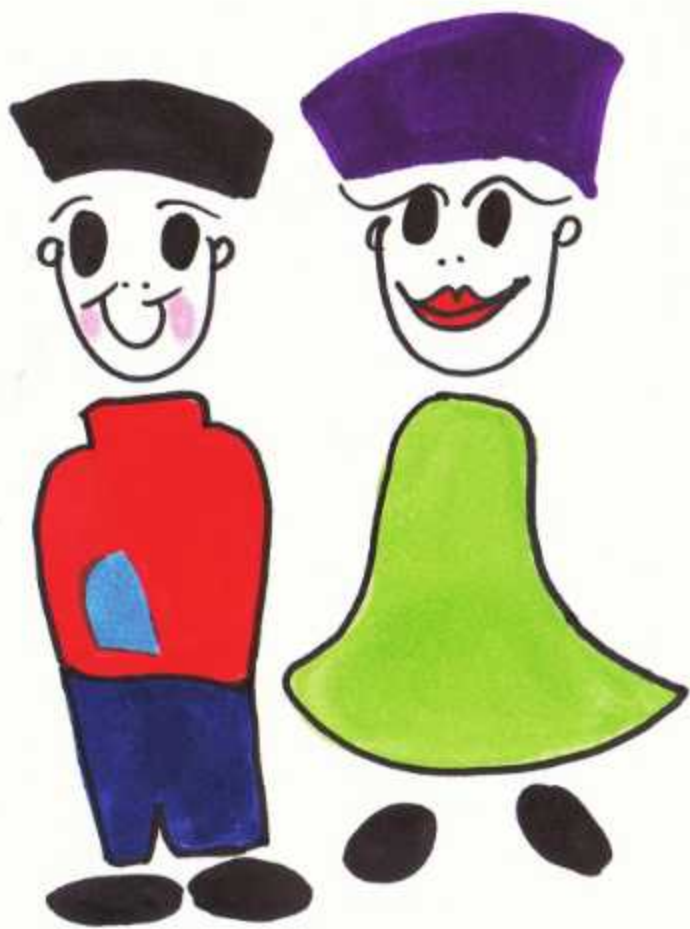

Don't Lucas and Lilly look excited to go to school? They have a fun day ahead in kindergarten.

7

The big yellow bus is here!

The bus will take them to school where they go to kindergarten.

Finally, Lucas and Lilly are at school. They go to a brown school, downtown.

The bus takes them to school and back home each day. Even when it rains!

School can sometimes be challenging and also fun.

The teacher that wears an orange shirt is teaching Lucas and Lilly about numbers. 1, 2, 3, 4, 5 and they continue.

The teacher in the orange shirt has Lucas and Lilly and the other students in the class repeat numbers: 1, 2, 3, 4, 5 and on and on. This helps them learn their numbers for many reasons such as telling time, doing math and remembering their phone number.

Sometime someone will ask you how many fingers you have on your left hand. If you do not learn your numbers, you cannot count to 5 to answer the question.

1 2 3 4 5 6 7 8 9 10
